

Wendy Wadsworth carbon report

Our carbon footprint is 232.75 tCO₂e.

Average carbon footprint of a primary school (24/25 data) is 204 tCO₂e. So we are higher than average.

Analysing our statistics against the 2024 report, we are higher than average in fuel emissions by 13%. (Average is 36% but we are 58%)

Also staff commuting where average is 26% and we are 73%.

The other areas we are equal or lower than average.

Energy changes advice: Reduce consumption / switch to a renewable energy contract / install solar panels / move to electric heating systems

Staff commuting advice: encourage staff car pool / introducing a salary sacrifice scheme to encourage use of electric vehicles
