# **Tune in on Tuesday**

Wheelwright Lane Primary School Newsletter Issue 29: 20.04.21 www.wheelwrightlane.warwickshire.sch.uk

Diary dates for the Summer Term are shown below and will be included and updated on every newsletter.

27.04.21	Yr 6 complete Health		
	Questionnaire in school		
03.05.21 (Monday)	Bank Holiday - children not in		
	school		
06.05.21 (Thursday)	The Link section used for		
	Polling Station		
	School is open as usual		
	Wraparound to use main		
	parent gate to drop off and		
	collect children.		
14.05.21	School photo day - more details		
	to follow		
28.05.21	Children finish for half term		
07.06.21 (Monday)	Children return to school		
17.06.21	Transition workshop for Yr 6		
	children and parents - more		
	details to follow		

Teacher Training Days - Thursday 2<sup>nd</sup> September 2021 Friday 3<sup>rd</sup> September 2021

# **Extra-curricular activities**

Activities start the week Monday 19th April

Monday	Keyboard 1.00 -		
	2.30		
Tuesday	Football Skills	Yr3 & Yr4	12.30-1.00
	Basketball	Y5 & Y6	3.15-4.15
	Reading Booster	Y6	3.20 - 4.30
Wednesday	Football Skills	Y5 & Y6	12.30 - 1.00
	Tennis	Y3 &Y4	3.15-4.15
	Maths Booster	Y6	3.20 - 4.30
Thursday	Maths Booster	Y5	3.20 - 4.30
Friday	Guitar		1.15 – 2.45

### **Returning to school**

We hope you all managed a rest over the Easter break - it was good to have a little warmer weather and to see the sun. The children have been using our extensive grounds for playtimes and lunchtimes - let's hope the weather remains dry for a while.

Warwickshire County Council have produced a short animation for parents/carers/children on returning to school - please click on the link below and share with your children and family. <u>https://www.youtube.com/watch?v=zxOtgpZ4</u> <u>VWk</u>

Public Health England (PHE) working with Warwickshire Education department have put together a letter for parents/carers. Please read the attached letter regarding: face coverings; Testing at home; self-isolating; Covid in your home and what to do if your child is unwell.

Please take advantage of the free LFD testing kits available from your local Test Centre or posted to your home. All staff in school regularly test twice a week to check for infection.

## The Big Ask

The new Children's Commissioner for England, Dame Rachel de Souza, has today launched <u>The Big Ask</u> - the largest ever consultation with children aged 4 to 17 in England. It aims to find out children's concerns and aspirations about the future, so that we can put children at the heart of our country's recovery from the coronavirus (COVID-19) outbreak. They are also collecting the views of parents/carers. Please use the link below and add your views to the survey.

#### <u>https://www.childrenscommissioner.gov.uk/th</u> <u>ebigask/</u>

# Welcome to new staff

We welcome three new members of staff this term: Miss Rutherford, class teacher in Year 2; Mrs Williams and Miss Pearce, Nursery Teaching Assistants.

Mrs Wall will continue to support in Year 2 and Year 1 and has extra responsibilities regarding the leadership of our school curriculum.

Mrs White is also still in school and is providing specialist support for children in Years 1 and 3.

### Wraparound Care

School staff are continuing to provide emergency wraparound care for this half term. Thank you for returning your request letters. It is important that I know attendance numbers as this is linked to staff availability and costs. A reminder that you need to book your children into the club in advance and pay in advance for this service. The wraparound club has to cover its own costs of staffing etc. and this is still proving to be difficult to run presently.

Do remember, we are also here when emergencies arise and will provide support please don't hesitate to telephone the office if emergency support is needed.

### Manor Adventure March 2022

We still have our booking for the Manor in March 2022, we are currently waiting for the final costings to come through (unfortunately they have been unavoidably delayed due to the Pandemic) although as soon as they are available we will send out all the information so that you are able to book a place.

#### **Dear Parents and Carers**

Welcome back to the Summer term. Public Health at Warwickshire County Council, working alongside the Education Department are leading on the management of COVID-19 cases in settings. As cases reduce locally and nationally, we are reviewing the actions we are recommending preventing cases coming into the setting, to reduce spread as far as possible within the setting and community. Therefore, there will be additional information to previous guidance.

We would like to share some key messages and recommended actions, which are outlined below

#### Face Coverings:

• Ensure that you wear face coverings (covering your nose and mouth) when dropping off and collecting children, maintaining distancing on the way in and way out of the setting. We have had reports across the County of lapses in social distancing and use of face coverings.

#### Testing: At Home rapid Lateral Flow Device (LFD) tests.

• To support reduction in community transmission, we advise household members to undertake rapid/ LFD testing twice weekly (minimum once a week), if you have a child in school or if you are unable to work from home.

Please order your home rapid LFD (plastic cartridge home test kits), They can be used twice a week (3-5 days apart) and can be reordered daily. They can be collected locally from:

- PCR walk in centres (from 1-8pm daily) you can find your nearest collection site here: <u>https://find-covid-19-rapid-test-sites.maps.test-and-trace.nhs.uk</u> (please check times at your local site)
- If the walk-in centres are not close to you, you can have LFD tests delivered to your home by Royal Mail, usually within 24hrs. These can be found from this website. <u>https://www.gov.uk/order-coronavirus-</u> rapid-lateral-flow-tests
- All results from at-home LFD tests require registering online and any positive results require a confirmatory PCR test within 72 hrs of the test. Following a positive result, the household should self-isolate. The person who tested positive should have a PCR test and only if it is negative can they and the household stop isolating. Early years and school bubbles will isolate based on a positive result and return once the test is confirmed as negative.

If you are planning on using a walk-in test centre for your confirmatory PCR test – please note these now close for appointments at 1pm (last test 12.30pm). Please book your PCR test as soon as you have a positive LFD. You can book PCR tests via https://www.gov.uk/get-coronavirus-test or by ringing 119

Note: Those that have tested positive for Coronavirus by PCR are exempt from a further PCR or LFT/D test for 90 days, unless they develop new symptoms, or have otherwise been exposed and advised to do so

• It is crucial, that in addition to the regular testing with rapid LFD, that anyone with COVID-19 symptoms accesses a PCR test via https://www.gov.uk/get-coronavirus-test or by ringing 119. If you are unwell with a new continuous cough, high temperature or a loss or change in taste or smell, you and your household must self-isolate for 10 days from the date of first symptoms, unless there is a negative PCR test result.

#### When you or your child are self-isolating as a close contact of a case

• We know that when isolating as a close contact, some close contacts may become positive for COVID-19 without showing any symptoms and unaware they have the virus. In addition, this can pass onto household members who may become unwell or not show any symptoms. We advise all children and family members to rapid LFD test with home test kits when a member of the household is self isolating to reduce the likelihood of cases. This is above the national guidance for community testing, and as such will include all children in the household. These tests can pick up some cases without symptoms in the household (order them as above). They should be used twice a week (3-5 days apart) and can be reordered daily. Day three and day eight of your isolation are ideal days to test. If you haven't been able to test during isolation, then testing on the day after isolation (day 11) before they return to the setting would be ideal.

#### Note: Those that have tested positive for Coronavirus by PCR are exempt from a further PCR or LFT/D test for 90 days, unless they develop new symptoms, or have otherwise been exposed and advised to do so

#### Cases in households

• Same as the guidance above, when there have been cases in a household we would ask household member to test on day three and day eight of the isolation. If you haven't been able to test during isolation, then testing on the day after isolation (day 11) before they return to the setting would be ideal.

Whilst LFD tests do not rule out COVID-19, they may pick up some cases and support safe return to the setting. We recommend you book your tests in advance. All LFD tests are better taken first thing in the morning (as early as possible – but not the night before).

#### Be aware of COVID in your home.

• Please note, that while COVID-19 usually presents with a new continuous cough, high temperature and loss or change in taste or smell. COVID-19 can present with other symptoms such as; sore throat, severe fatigue/ feeling

unwell for no clear reason, poorly tummy, headache and muscle aches. Looking out for these less common symptoms is especially important for those with a child/ren self isolating - if your child or even members of your household become unwell in the isolation period, although it may be a seasonal cold, please consider this could be COVID-19.

- You/your child can PCR test whilst they are isolating and should test if they have symptoms. Those self-isolating should not attend community Lateral Flow Test (LFD) centres. PCR tests (not LFD tests) should be used for people who are have symptoms as these are the most accurate test. You can book a PCR test online at https://www.gov.uk/get-coronavirus-test or by ringing 119. When booking online, you can tick that box that states "Public Health/ Local authority has requested you book a test". You **are** permitted to have a test with lesser symptoms, but the household legally do not need to isolate at that stage, unless anyone has a cough, temperature, loss or change in taste or sense of smell).
- When someone in the household has COVID-19, wherever possible, avoid using shared spaces such as kitchens and other living areas while others are present and take your meals back to your room to eat. Wear a face covering when spending time in shared areas inside your home. Increase cleaning of things and surfaces people touch, do not share towels, use hand sanitiser, ensuring that handles of cups, trays, and cutlery/crockery are cleaned appropriately between uses.

#### What to do if your child is unwell?

As cases are much lower in the community, we will expect to see less cases in the setting and anyone unwell are more likely to be seasonal colds. COVID-19 can present with other symptoms such as; sore throat, severe fatigue/ feeling unwell for no clear reason, poorly tummy, headache and muscle aches. Before COVID we would ask unwell children to remain home until they are feeling better as we wouldn't want to have nasty colds going around the setting.

If there are high numbers of cases in the setting or community then we would ask that a child unwell tests for COVID by PCR as this is the more accurate for children with symptoms, results take a day on average. However, as a minimum we would expect children to rapid home LFD test based on symptoms. Although those with a high temperature, new consistent cough, loss or change in sense of smell must PCR based on national guidance.

Thank you for your support with the above recommendations, designed to support maintain education provision for your child(ren), and to keep you, your families, your setting, and your local community safe.

Kindest Regards Liann Brookes-Smith Public health Warwickshire County Council
